"GENERATING EXCELLENCE"

October 25, 2018

To Whom It May Concern:

I am writing this letter on behalf of my former student, Brendan Racca. Brendan was a student in my Modern World History class last school year at Clovis East High School. During his time in my class, I was able to experience and appreciate Brendan's strong intellect and work ethic. Brendan is a dedicated and reliable student who consistently works hard in everything he attempts.

While Brandan has proven himself to be a strong student in a traditional classroom setting, he has also thrived as a student at the Center for Advanced Research and Technology, or CART. While a student at CART, Brendan has been an enthusiastic contributor in the Web Application Development lab. During his time at CART, Brendan has learned how to code websites using html and has also created Adobe Spark pages. He has effectively collaborated with other team members and has even presented a flash talk on cryptocurrency. Brendan has a clear interest in technology and CART has certainly been a place to foster this interest.

I highly recommend that Brendan be placed in an internship that can highlight his unique talents and abilities. I know that Brendan would work hard and commit himself to any task or project. I would encourage you to give Brendan the strongest consideration when deciding whom to accept into your Web Application Development internship. Please feel free to contact me at (559) 327-4000 or sabrinamills@cusd.com if I can be of further assistance.

Sincerely,

Sabrina Mills
Social Science Teacher
